DRAFT PROGRAM: 21 September 2023		ngrès maghre	bin de cardiologie& 10 ème congrès de l'AMCV &PAS	SCAR					
21 deptember 2023	Carthage: " The Main Session "	Djerba : " The Cross	LOOK" session	Cap Africa : " The	Cardiochronic " session	Syphax " Back to basic" session		"Case based L	earning" session
Timing	Topic	Timing	Торіс	Timing	Торіс	Timing	Topic		
9-10H 10H-11H	Coffee break & exposition visit & live in the box  Hypertension, what to learn in 2023?	10-11H	The Chronic coronary syndrome : unresolved issues	10-11H	Left ventricular outflow Obstruction	10-11H	Back to basics « Trans-oesophagus echocardiography »	10-11H	
Moderators	R Boujneh, A BelHani,	Moderators	B Boukhriss	Moderators	F Abid, A Abid, F Maatoug, F Warda, C Kortas, F Ghedira, K Hakim				
Sponsorisé adwya	Essentials of the 2023 ESH Hypertension Guidelines  Hypertension in a stroke setting : go slowly, go Hard ?		PCI : useful or useless ?  New medical therapy: fact or fake		Perinatal management of aortic coarctation  Should congenital valve stenosis be dilated or operated ?	Simulation Mentice?			
en ligne	Hypertension management in cancer patients?		The coronary sinus reducer: a promising tool for the refractory angina		When should we operate sub aortic stenosis?				
11H-12H	New Tools in Hypertension management ?  Dyslipidemia, New targets, new weapons!	11H-12H	CV rehabilitation: the last promise in CCS!  Latent cardiomyopathies	11H-12H	What surgical options for LVOT obstruction?  Let's make the right decision in Cathlab!	11H-12H	Back to basics : The ECG Q&A battle	11H-12H	Zoom on a picture in Pediatric Cardiology
Moderators	bysinputenna, New targets, new weapons:	Moderators		Moderators	zec 3 mane the 1 gir decision in eachido .	118-128	·	1111-1211	Zoom on a picture in Fediatric Cardiology
Sponsorisé Thera en ligne	Treat to target or with intensity!  A New dawn of lipid therapy		Cardiomyopathy in diabetic patients: the key messages!  Silent ischemic cardiomyopathy: how to manage?		Coronary imaging to guide PCI implantation  Provisional stenting optimization: should we care about the side branch i	2023!			Case 1
en ngne	The residual risk: Time to act!		Don't Forget Cardiomyopathy in obstructive sleep apnea patients		An ischemic intracoronary bridging!	2023:			Case 2
	Should we endorse new targets without new drugs?		Scelordermia & CVD: news concepts &new solutions		Isolated ostial circumflex stenosis: how should we manage?				Case 4
12H-13H Moderators	Saga of antithrombotic treatment in interventional cardiology	12H-13H Moderators	Cardiac Stimulation Challenges in Africa (joint session PASCAR-AFRA)	12H-13H Moderators	Optimizing Medical treatment in Heart failure: Difficult situations	12H-13H Echopac- GE	Back to basics « Master Speckle tracking imaging »	12H-13H	
moderators	CCS, clopidogrel: the game is Over?	moderators	NATURE-CIED reveals cardiac pacing secrets in Tunisia	moderators	My patient has hyperkaliemia	Echopace of			
	ACS, a monotherapy from the outset: facts or fakes  Aspirin in coronary artery disease: is it still king of the ring?		Leadless pacing indications in 2023  Does LBB pacing overtake CRT?		My patient has hypotension  My patient has renal failure				
	DOAC in coronary artery disease: a new paradigm!		ICD implantation in African context		My patient has iron deficiency				
13Н-14Н	Interventional cardiology: What could change my practice in the future ?	13Н-14Н	JOINT SESSION with STEDIAM: the new ESC guidelines , what to learn ?	13h-14h	Mitral valve prolapse: what can we learn in 2023?	13Н-14Н	Back to basics : The coronary angiography Q&A battle	13Н-14Н	Artificial intelligence in cardiology: Thinking ou
Moderators mehdi debba??	The drug eluting balloon: the attractive "leave nothing behind" concept!	Moderators Astra-zeneca	Glycemic variability , is it worth the cost?	Moderators en ligne	Sudden cardiac death: How to predict ?			Moderators	AI toolbox for the cardiologist
Lunch Box	Let's know more about new Scaffolds!		First Line: Metformin the king of the ring?		Sudden cardiac death:How to prevent ?				AI in cardiology in Maghreb: what was done and
	Resistant lesions: orbital, rotablator or shockwave  The emergence of image -based coronary physiology		First Line: iSGLT2 : is my first choice ?  First Line: GLP1 agonist : is my first choice ?		How to repair a mitral valve prolapse? : Percutaneously  How to repair a mitral valve prolapse? : surgically				DeepCath: a Tunisian AI soultion
14h-15h	Burning questions in heart valve disease	14H-15H	Active cancer: embarrassing settings!	14H-15H	Anticoagulation: a must-attend session	14H-15H	Back to basics " Carotid Ultrasound"	14H-15H	My nightmare in cathlab
Moderators	Beyond Aortic Stenosis: Challenges of Multivalvular Disease Assessment	Moderators	Ben Farhat ( de la part dr Fehri)  Biomarker disorders: act or wait?	Moderators	Minor Bleeding while under DOAC: how to manage?			Moderators	
	Update in Ischemic mitral regugitation		Thrombosis and thrombopenia: what embarrassing!	Philadelphia	DOAC management in surgery context				Case 1
	Multimodality imaging in heart valve disease	En ligne	A chest pain: go far?		Ischemic Stroke under DOAC: how to manage?				Case 3
15H-15H30	TAVR in African context  Symposium Medis: Mpiko		Pulmonary hypertension in cancer patients: why, and how!		Role of DOACs in Valvular HD in 2023				Case 4
15H-15H30 15h30-16H	Coffee break & exposition visit & live in the box								
16Н-17Н	Heart Failure-REF 2023 update (joint session with HFA) ( demande endo	16Н-17Н	Valve disease assessment and decision: Let's be practical!	16H-17H	Surgery session: the must in 2023	16Н-17Н	Back to basics : The TTE Q&A battle	16H-17H	My success Story in cathlab
Moderators	HF-REF: how to sequence, how to up titrate in 2023?	Moderators	Asymptomatic severe valve disease: treat or wait?	Moderators	Arterial Conduits for Grafting Coronary Arteries; Surgeons' Pride			Moderators	case 1
	Reverse LV Remodeling: the dream becomes reality	En ligne	Tricuspid valve disease, what do we learn in 2023?		Robotic surgery: must or must not!				case 2
	Hemodynamic assessment in HF-REF!  CRT-D/P in the era of new therapies	En liane	Valve diseases and LV dysfunction: pitfalls to assess?  2023 ESC Guidelines on endocarditis : the hotlines	tarmize??	Conservative surgery in endocarditis: is it the new gold standard?  Simulation &AI in cardiac surgery				case 3
17H-17H30	Symposium Pfizer	En ligne							case 4
17H30-18H	Symposium Biosensors : M Mamas								
17/H3g-18H TEDs primium lecture									
22 September 202	3								
Timing	Carthage: " the main Session"  Topic	Djerba " The cross Lo	ook" session Topic	Cap Africa: "The choraire	Cardiochronic session"	Syphax: How to session		5 eme salle	
8h30-9h30	Interventional Cardiology: The acute coronary syndrome overview (join	8h30-9h30	How to manage a cancer Patient	8h30-9h30	Lifestyle-based prevention: New evidences!	8h3o-9h3o	How to "Doppler guided vascular puncture in TAVR"	8h30-9h30	PASCAR RHD in Africa Session Moderator Prof L
Moderators	ACS with non-significant lesion: The vulnerable plaque paradigm!	Moderators	How to manage a cancer patient with LV dysfunction		Low Sodium Diet: Should or Shouldn't?			Moderators	
	ACS with normal angiogram: Should we care about microcirculation assessme	at?	How to manage a cancer patient with QT allongement		Coffee, Tea and Chocolate and cardiovascular risk!				Towards development of Group A strep vaccine From registries to registers. How can we expand RI
	ACS: the complete revascularization debate		How to manage a cancer patient who finished the oncologic treatment		Dietary supplements: Facts and Fakes!				Valve repair versus surgery? Updates from across A
9h30-10h30	ACS with cardiogenic schock: news about cardiac assistance in cathlab!  EHRA session: Atrial fibrillation Screening and Management	9h30-10h30	The future of anticoagulation in a cancer patient  How to manage cardiac acute complications in Cancer Patients	9h30-10h30	The intermittent fasting: one size fits all!  The raised questions in coronary syndromes!	9h30-10h30	How to " Begin in Atrial septal puncture":	9h30-10h30	PCM in Africa  PASCAR Heart Failure in Africa – New evidence, 1
Moderators	and testing the management	Moderators		gingo rongo		gingo tongo		Moderators	
	When to ablate asymptomatic AF?  Controversy: Screening of AF by photoplethysmography (PPG): Pros & Cons		Cancer and Acute coronary syndrome  Cancer and Atrial fibrillation		CT scan: don't underestimate this tool in 2023!  Viability and hibernation concepts, are they still viable ?				Heart failure in Africa - Evidence and gaps
	When to anti-coagulate asymptomatic AF?		Acute heart failure in cancer patient		Multivessel disease: how to revascularize in 2023?				GDMT for heart failure special consideration for Af Heart failure in women special consideration for Af
			Cancer and veinous thromboembolic complications		INOCA: The new answers?				Management of Iron deficiency in heart failure
10h30-11H 11H-11H30	Symposium Opalia Recordati: Pr I Elalamy  coffee break &live in the box & exposition visit								
11h30-12h30	Opening Session - Saiph Ali Bousnina Awards								
12h30-13 H	Symposium Hikma: A Bayes Genis  Hypertension in Africain Context (Joint session with PASCAR)		The functional mitral regurgitation: how to manage ?		DOAC, Meet the experts : a comtempory Relook at Lingering Issues	_	How to "Bifurcation PCI"		Paramedical Session
13-14H Moderators		13-14H Moderators		13-14H		13-14Н		13-14H Moderators	
Servier	The global burden of hypertension		Ultrasound imaging toolbox	sponsoring	DOAC in renal failure: fear or go further?				Role of the Technician in Rotapro Procedure
	The Challenges of hypertension control in Africa  Treatment of hypertension in the black patient		OMT and CRT: the first line therapy  Go percutaneously		Not all LV thrombus are the same  DOAC and Deep venous thrombosis prophylaxis in medical settings? should o	shouldn't?			Role of the Technician in cardiogenic shock  Role of the Technician in Tavi procedure
	Consensus statement on hypertension in blacks		Go with minimally invasive surgery		DOAC and drug interaction				
14h-15h Moderators	2023 ESC guidelines : what to learn?	14h-15h Moderators	The hotlines of Veinous Thrombosis management in 2023!  J.J. Mensuez,	14h-15h Moderators	Surgery session: valvular heart disease in African context	14h-15h	How to « 3D TEE»	14Н-15Н	My "Success Story" case in cathlab
Moderators	2023 ACS ESC guidelines: The hotlines	Moderators	How to manage the superficial venous thrombosis?	Moderators	Surgeons' View of The Current Guidelines for Management of Valvular Heart	isease			Case from Tunisia
	ACS ESC guidelines in practice 2023 HF ESC guidelines: The hotlines ( 15 min)		How to investigate the recurrent veinous thrombosis?		How to optimize rheumatic multivalvular disease surgery				Case from Morocco
	HF ESC guidelines in practice (8 min)		Antiplatelet therapy in venous thrombosis prevention: must take or a mistak  Thrombophilia: DOAC -VKA battle!		Valvular disease with LV dysfunction: when to surrender?  Surgical Aortic valvuloplasty techniques in Aortic regurgitation				Case from Algeria  Case from Lybia
15H-15H30	Symposium SERVIER : Neil Poulter								
15H 30-16 H 16H-16H30	Symposium Philadelphia: D Ichtaporia  coffee break &live in the box & exposition visit								
16Н30-17Н30	The pearls of Acute heart failure management (joint with EACVI) (endor	16Н30-17Н30	Heart valve prothesis: Key updates	16H30-17H30	Supra-aortic trunk disease: Hot topics	16H30-17H30	Back to Basics « Master Pacemaker programming »:	16H30-17H30	A practical session for "EP Fans"
Moderators	Echocardiographic pitfalls to assess acute heart failure	Moderators	Pitfalls in TTE assessment of heart valve prothesis		Management of Carotid artery disease in candidates to heart surgery	Madama I		Moderators	
	Should we care about Hemodynamic monitoring!		CT - MRI + so valuable for patients with heart valve prosthesis?		Management of carona artery disease in canadates to neart surgery  Management of intracranial artery stenosis	reacroffic			case 1
	How to optimize IV drugs?		3D Transesophageal echocardiography: when is it useful?		Management of vertebrobasilar artery atherosclerosis				case 3
17H 30-18H	How to optimize mechanical support!  Symposium Boehringer Ingelheim:		Para-prosthetic leak: How to resolve percutaneously?		Surgical management of Takayasu arteritis				case 4
18H-19H	Sudden cardiac death risk prevention	18H-19H	Meet the editors!	18H-19H	Mini-invasive cardiac surgery : How to start ?	18Н-19Н	How to « manage rhumatic valvular disease» PASCAR	18H-19H	My nightmare in cathlab
Moderators	My patient has hypertrophic cardiomyopathy	Moderators	How to best write your manuscript ?	Moderators	The minimally invasive multivessel coronary revascularization in all cases	Moderators		Moderators	Case 1
		1	How to best write your manuscript ?  Reviewer point of view		Minimally invasive surgical approach for single valve disease				case 2
	My patient has a non hypertrophic Cardiomyopathy (DCM/ LVNC/ARVC
